Our mission is to enrich young learners through fun and engaging classes and programs that promote creativity, confidence, and social skills. For several years, we have provided an after school program, a summer program, as well as a variety of classes for kids. Due to the pandemic, we were eventually forced to give up our physical space. However, we are staying active in the community by offering several virtual programs, including virtual art and writing classes, virtual tutoring, and a virtual after school program. We hope to be able to reopen in a new space and resume all of our programs in the future.

THURSDAY

Learn Magic, offered by Magic Evan

<http://magicevan.com>

\$150 / child
Thurs 3-4pm

One day, when I was 8 years old, I went to the library and found a magic book — I was hooked. What I loved most was the idea that performing magic is like giving someone a gift. I performed my first magic show when I was in the 3rd grade. To continue learning how to use the arts to make a positive difference, I went to college to earn a B.A. in English and Theater from Rutgers and a Masters Degree in Educational Theater from New York University. I went on to partner with dynamic organizations, such as Rosie's Theater Kids, The Leadership Program, LeAp, Inside Broadway and more, to inspire, empower and prepare children for the challenges and opportunities of the 21st century. TimeOut, RedTricycle, CBS New York and more recognize me as one of the "Best Magicians for Kids in NY." Chances are you or someone you know has seen me on NBC Universal's Sprout Channel, in-person at one of 3,000+ shows, or — more recently — at a live virtual event.

We want to turn those casual interests and weekend doodles into amazing, unique, and inspiring artistic creations. We treat all of our students as individuals and guide them to explore their own vision and creativity.
